

The moment for change is now: transcript [English]

Heiko Schöning:

Hello, this is Berlin. This is the 10th of October 2020. We are here to announce the World Doctors Alliance, under the roof of ACU2020.ORG.

My name is Heiko Schöning, I'm a medical doctor from Germany.

I'm one of the founders of "Ärzte für Aufklärung" and the Covid-19 Extra-Parliamentary Inquiry Committee.

We are doctors, scientists and peace activists, and we are all saying together: This affair of Covid-19 is just not true. And we have the duty, especially as medical doctors, to speak out the truth.

And so I am very delighted to have these international professionals today here in Berlin, and we will have a lot of actions for the people today.

Dr. Mohammad Adil:

Hello everybody, I am Dr. Mohammad Adil. I have traveled from the United Kingdom yesterday with my fellow colleagues to participate at this magnificent World Doctors Alliance. I am Consultant Surgeon with 30 years of unblemished record while working for the National Health Service in the United Kingdom. I am a Fellow of the Royal College of Surgeons of the United Kingdom, with significant contribution towards medical sciences, teaching, training, research work and charity and human relief.

I'm chairman of the World Doctors Alliance, and on this platform we are trying to bring the truth to the public related with the infectivity of the orchestrated corona virus and its dangerousity and lethal facts, we are bringing the truth to the public. It's not the coronavirus, it's not as dangerous as it has been orchestrated, and we have to live with that. Many thanks.

Elke de Klerk:

Hello, I'm Elke de Klerk from the Netherlands, I also work in Belgium as a General Practitioner. I founded "Doctors for Truth" in the Netherlands, and I organized a meeting, an international congress on ethics. It was the medical and ethical emergency deliberation.

We are here to tell the people about the science that is now there and the facts about data, about ill people. It is not as terrible as the media are telling you. We have contact with all those doctors in the Netherlands, hundreds of doctors in the Netherlands. We are keeping

records and the hospitals are not full, the people are not ill, they are tested, but the tests that are provided, don't work as they should. So, we have to get this out to the public, and we have to also be there for our colleagues to have an open debate about this.

Thank you very much.

Dr. Mikael Nordfors:

My name is Mikael Nordfors, I'm a medical doctor, author, musician and political reformist from Sweden, and I have started an organization called "People's Court", our aim is to support everyone standing up against the tyranny, the medical tyranny now we are getting all over the world so that people don't have to be afraid. We will help them to get new work, get money, support, collect money to support all the people standing up. And we will arrange a new Nuremberg trial, hopefully in Nuremberg, to litigate against all the criminals behind this hoax.

Dr. Zac Cox

Hi, my name is Zac Cox, I'm a holistic dentist. I'm the General Secretary for the World Doctors Alliance. Lockdown has caused more harm than the virus has, and we're here to bring an end to it and to restore freedom to the world.

Boris Dragin:

Hello everybody, my name is Boris Dragin. I'm a physician, naturopath from Sweden and I represent "People's Court" as the rest of the Swedish party. What I want to do is bring much needed truth and facts to all the people who are still unaware of what the population is being exposed to. My contribution is communication. Thank you.

Martin Byrne:

Hello everybody, my name is Martin Byrne, I'm an advocate for human rights from Ireland. I've traveled here today to speak on my own behalf, and not on behalf of any particular organization. My goal is to protect, defend and preserve fundamental rights and fundamental freedoms for all people of Europe and the world. I have become concerned about the gross censorship and incredible trespasses and infringements on human rights over the last year, and I'm concerned about protecting those.

Thank you very much.

Monica Helleberg:

Hello, my name is Monika Helleberg, I'm from Sweden. I am chairman of the People's Court, I'm a core member of the New Earth(?) project and a freedom activist, teacher and visionary. I propose that we all expose the darkness that is going on, all the fraud around the planet because it's very, very bad, and that we should unite, because together we are strong and we have all the facts all put out there. And the last thing is to act: from taking conscious action and really creating what we want to have in the world.

Thank you.

Mads Palsvig:

My name is Mads Palsvig, I'm from Denmark. I'm a former investment banker. I am the chairman and the founder of the People's Party JFK21, it stands for Earth, Freedom and Knowledge. What I particularly bring to the table apart from obviously good health policy, which is "my body, my choice", it's a very, very strong economic platform based on my experience advising the Federal Reserve, and working as a government bond trader for Morgan Stanley, Crédit Suisse and Barclay's. It is an economic platform that simply will remove poverty and create one large middle class. So instead of what we have right now with a growing number of technocrats and people living in poverty and the destruction of the middle class we will do exactly the opposite. So, for example, we will remove income tax, we'll have a taxation, a Tobin tax, a taxation on digital transactions of money. We will remove the VAT, and put in a turnover tax there.

We'll have money creation for the people "Frosti Sigurjónson" style from Iceland. He made programme, a hundred page programme, he was a member of Parliament there. And if you have the National Bank creating money for the people instead of right now, we have private loan banks are creating money for their clients. It will create wealth and prosperity for the people.

Thanks a lot for being here, thanks a lot everybody.

David Kurten:

My name is David Kurten, I'm from Great Britain. I'm a member of the London Assembly, and I'm standing to be Mayor in the next elections in May 2021. I'm also a chemistry graduate and I see that the politicians and the media have a very, very poor understanding of science and mathematics, and they've pursued and pushed a narrative that the coronavirus, covid-19 is far, far worse and more dangerous than it actually is. The reality is that it is no worse than a bad flu season, but they've been ramping up the fear, they've taken away civil liberties, they've destroyed businesses, and their policies have been very, very harmful to people's mental health and also physical health of other people that cannot get hospital appointments, who would otherwise have been able to get it. In the UK I have started a new political party, called "the Heritage Party", which is gonna stand up for liberty and freedom

of speech, and is gonna restore sanity in this area. Because the main parties are too hands of the same puppet that are pushing these destructive narratives, and it has to end, in the United Kingdom and all over the world.

Monique Janssen

Hello everyone, I'm Monique Janssen, I'm from the Netherlands. I'm a psychologist, I'm also the founder of a group of women for freedom in Holland, where we organize marches and podia. And I'm here to help people remember that they are miracles, to help our children remember that they are miracles, and I want to show people how they have been programmed so they can step out of the programme and create their own programme. And that way we can create a whole better world than ever before. So I don't want to go back to the old normal, but I would like to create a whole new normal together with all of you.

Thank you for being here.

Wendy Ekels

Hello, I'm Wendy, I'm also from the Netherlands, and we created a group "Humanity Unite". I'm also ready to create a new world, new health here and honester world together. Thank you.

Agathe Dorado

Hello, I'm Agathe Dorado from Denmark, and I'm a holistic doctor. I've been practicing for 20 years and I realized one year ago that the 5G was being set up all over the planet. And I researched a lot and I started up a trial against the Danish government for implementing the 5G, because the 5G is a part of this whole corona scam. It gives you the symptoms of the flu, and will kind of make this narrative go on and on and come and go. And that is why I find it extremely important and I'm here today because I really would like to connect to many people, and make this organization big, so we can go to each other's demonstrations and help each other to take these crazy governments down. Thank you very much for everyone.

Fiona Hine

Hi, I'm Fiona Hine, I'm from London, UK. I founded Covileaks.co.uk which is to find the truth, and expose the truth. I'm also a freedom activist and I've set up the "Resist and Act" freedom movement in the UK, and I organize rallies in the UK and now internationally with this amazing collective of people to freedom-fight together. Thank you.

Dr. Margareta Griesz-Brisson

My name is Margareta Griesz-Brisson, I'm a consultant neurologist from Germany, and I would like to ask our Ärztekammer and our Gesundheitsämter, which means the German Medical Council and our Centre for Disease Control : where is your evidence that we still have an ongoing deadly infectious disease, that could justify all the restrictions that you implemented on us within the last year. Please share this evidence with us, and I can guarantee you, if you enter into the discussion with us, we will be behind you.

Dr. Heinrich Fiechtner

Hello, my name is Heinrich Fiechtner, I'm oncologist, hematologist, palliative care physician, I'm a politician, member of the Parliament in Baden-Württemberg, and I think it is my duty to stand up to hold up truth and liberty. Being Christian, being a politician, being a physician, it is my obligation to hold up the truth flag, and to stand up against the suppression of people, against panic, against a foreign control to come back to the eternal value of creation, where man was created free to develop himself freely, which is in great danger due to this panic, due to this satanic theory, which is imposed on the people worldwide. And I see my obligation to tell people, but also to even more, to tell my colleagues, my medical colleagues to stand up, to be courageous, to remember what they have been obliged for, what they have given an oath for, to stand up for their patients, to stand up for their health for their freedom and against any oppression. This is our duty as physicians, and I call upon all physicians in Germany and worldwide to DO their jobs. Stand up against this oppression.

Prof. Dolores Cahill

My name is Professor Dolores Cahill, my background is molecular biology and immunology, and I'm also here as President of the World Doctors Alliance and supporting ACU2020.ORG. It's my pleasure to be with my colleagues, including Dr. Heiko Schöning, Dr. Mohammad Adil, and we're here to say that there is good news: the coronavirus is a seasonal virus that causes illness and symptoms from December to April, and that for people who have symptoms there are treatments like inhale steroids, hydroxychloroquine and zinc, so there is no need for the lockdown, there is no need for fear, there is no need for masks, for social distancing, or for quarantaining people. They are locking people in their homes for last year's flu, for where there is an effective treatment.

So we want to communicate this message to people: there is no need for fear. And I'm involved in a number of organizations. I've been standing up for academic freedom and freedom of speech, I'm chair of the Irish Freedom Party, and I'm encouraging all of you that are listening to this, to get involved in new democratic and peaceful movements within your country, to stand for election, and to remove the politicians that are actually causing more harm than good.

And also, as for free speech I'm supporting a brand new tube, with doctors like Dr. Vernon Coleman, and in Ireland and across the world we are setting up a new custodian movement, custodians of our health, our heritage and our freedom; And what we want to do, we want to support Dr. Schöning as well as his WirKraft movement, is to actually support businesses and new innovative technologies that actually support the values of freedom of speech and freedom of health. So we will be looking at a new food movement, a new health movement, and to brand restaurants and hotels and airlines that respect our rights for freedom of movement, freedom of speech, and that we have the right to be informed about true health and the correct statistics about disease, and to hold of the regulators and doctors and advisors of government that if they are saying things and taking away people's freedom and health, that it needs to be supported by the evidence. So as President of the World Doctors Association I'm very happy to stand with these doctors today, and to lead the march in Berlin, which we hope will be millions of people, so that all of the doctors, regulators and politicians and people of the world will realize: you can take off the masks and welcome to our side for freedom!

Thank you very much.

Heiko Schöning:

Yes, so these are the statements of experts, doctors and other scientists and activists all over the world. And we have this good message to the people: we see NO evidence of a medical pandemic. So it looks like a plandemic. And we all together say: we don't want this "new normal", certainly. And we don't want to go back to the old normal, because the old normal created this situation of "new normal". We want a better normal and we want it together with you!

Thank you very much indeed!

NOTE: the abbreviation "JFK" in Danish stands for "Jorden Frihed Kundskab"
