MEMORANDUM FOR: Director of Security

FROM: [REDACTED]  
Special Assistant, DDA

SUBJECT: MKULTRA - Subject Identification Program

1. In our attempt to identify individuals who may have been harmed as a result of their unwitting participation in CIA's behavior modification program we have made an effort to contact all individuals who were in a position to have access to the information desired. The key individual in the most controversial program was the Bureau of Narcotics Agent George Hunter White, now deceased. Mr. White left a diary to which the Senate investigators, and the press as well, have had access. The diary was donated to the:

Foothill Jr. College  
12345 El Monte Road  
Los Altos, CA 94022

2. This Task Force desires access to the diary, preferably without going to California. Please explore the possibility of obtaining the diary, and other associated material and documents if any, on loan. Or, if the College administrators will not release the original perhaps they would be willing to furnish us copies of the material. Should neither be practical, please determine what arrangements are necessary for a Task Force member to visit the College and study the documents there.

3. Ultimately, we may need to interview all persons associated with the safehouses or who were in a position to periodically observe them. Therefore, please also determine the names of the owners, and if appropriate, the resident managers of the following addresses during the years indicated. Indicate each individual's present address and phone number if it can be determined.

4. Press accounts of White's activities frequently indicate Leo Jones, owner of the Fargo Co. in San Francisco, manufacturer of electronics equipment as a source. Jones reportedly tipped the Senate and the press to the existence of the diaries. A mailing address and any available additional biographic data on him will be appreciated.
